Assurance of Confidentiality

The collection of information in this survey is authorized by Public Law 100-297 and continued under the auspices of Section 404(a) of the National Education Statistics Act of 1994, Title IV of the Improving America's Schools Act of 1994, Public Law 103-382. Participation is voluntary. You may skip questions you do not wish to answer; however, we hope that you will answer as many questions as you can. No information collected under this authority may be used for any purpose other than the purpose for which it was supplied. Information will be protected from disclosure by federal statute (42 US Code 242m, section 308d). Data will be combined to produce statistical reports. No individual data that links your name, address, telephone number, or identification number with your responses will be reported.

INTRODUCTION

This questionnaire is an important part of a major longitudinal study of children's early educational experiences beginning with kindergarten and continuing through grade 5.

This questionnaire is directed to the school principal. It is divided into nine sections. The first seven sections request mainly factual information about the school and its programs. These sections can be answered **either by the principal or by a designee** who is able to provide the requested information. The final two sections request judgmental evaluations about the school climate and factual information about the principal's background and experience. We ask that these two sections be completed by the principal personally.

Some factual questions may request information that is not readily available from school records (e.g., the average number of years a limited-English-proficient first grader receives English-as-a-Second-Language services). Informed estimates are acceptable for such questions. Please answer directly on the questionnaire by circling the appropriate number or by writing your response in the space provided.

Thank you very much for your help.

A. DEFINITIONS RELATED TO LANGUAGE

Reference is made to language-minority (LM) students, limited-English-proficient (LEP) students, as well as English-as-a-Second-Language (ESL) and bilingual programs throughout the questionnaire. For this study, the following definitions apply:

- Language-Minority (LM) Students: A student in whose home a non-English language typically is spoken. This group includes students whose English is fluent enough to benefit from instruction in academic subjects offered in English as well as students whose English proficiency is limited.
- Limited-English-proficient (LEP) students: A student whose native language is other than English and whose skills in listening to, speaking, reading, or writing English are such that he/she derives little benefit from school instruction in English.
- English-as-a-second-language (ESL) program: An instructional program designed to teach listening, speaking, reading, and writing English language skills to limited-English-proficient students.
- Bilingual education program: A program in which native language is used to varying degrees in instructing students with limited English proficiency.

B. DEFINITIONS OF KINDERGARTEN PROGRAMS

Several questions refer to different types of **kindergarten programs**. For the purposes of this study, the following definitions apply:

- Kindergarten: Traditional year of school primarily for 5-year-olds prior to first grade.
- Transitional (or readiness) kindergarten: Extra year of school for kindergarten-age eligible children who are judged not ready for kindergarten.
- Transitional first (or prefirst) grade: Extra year of school for children who have attended kindergarten but have been judged not ready for first grade.
- Multigrade: A classroom containing kindergartners and some combination of other grades (for example, a combination prekindergarten/kindergarten).
- Ungraded: A classroom containing kindergarten-aged-students (possibly in combination with other ages), not formally identified as a "kindergarten" class.

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 1850-0719. The time required to complete this information collection is estimated to average 45 minutes per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collected. If you have any comments concerning the accuracy of the time estimate or suggestions for improving the survey instrument, please write to: U.S. Department of Education, Washington, DC 20202-4651. If you have comments or concerns regarding the status of your individual response to this survey, write directly to: National Center for Education Statistics, 555 New Jersey Avenue, N.W., Washington, DC 20208.
